

GULF.O.FLEX
PRODUCT OF RUBBERWORLD

COMMITTED FOR BUILDING A GREENER WORLD

For more than 20 years, Rubber World Industries continues to support the worldwide campaign in protecting the environment and supplying insulation products that adhere to Green Building Regulations promoted and implemented in many countries like the United Arab Emirates. From the sourcing of raw materials until the finished product, RWI ensures that it produces insulation products that comply with international standards by implementing best manufacturing and management practices as indicated and certified by ISO 9001:2015.

*Rizwan Shaikhani,
Managing Director of
Rubber World Industries*

THE VISION

Capitalizing on the opportunities in the HVAC Industry in 1993, it served as RWI defining moment. As a pioneer UAE national enterprise, RWI aimed to be the global parameter for quality, innovation and perfect cost-value balance. With the leadership of Mr. Rizwan Shaikhani, RWI has attained desirable heights and now supplying to more than 90 countries worldwide. "From our humble beginnings, we have reached to the top rank by hard work. With the customer in mind we create solutions that meet their needs," Mr. Shaikhani said. RWI makes sure to live up to its PCS Value which is to protect, conserve and sustain. "While we produce products that protect insulation systems, we also sustain resources and set standards for the world to follow," Mr. Shaikhani added. RWI invested in research and development for further innovation and development of products and services. It envelops not only optimizing production process and evolving the products to another level but also producing zero waste materials. RWI goal is to achieve zero waste manufacturing as an answer to the growing concern of environmental problems.

THE PRODUCT - GULF.O.FLEX

Having become the leader in engineered foams, Rubber World Industries LLC developed "Gulf.O.Flex" as the flagship brand in flexible foam insulation. Coming in Tube and sheet forms, "Gulf.O.Flex" products are designed and produced to be dust free, fiber free, CFC Free, has zero ODP, formaldehyde free and has low VOCs. Gulf.O.Flex is a closed cell elastomeric rubber insulation

products that are widely used for insulation due to its unique characteristics that are required to achieve energy efficiency. RWI regularly submits its insulation products for testing to ensure that quality is in accordance to international standards. The products are certified by Dubai Central Laboratory of Dubai Government in terms of product conformity. Gulf.O.Flex has already been part of nation building and to what considered as landmarks like Burj Khalifa and Downtown Dubai, Green Community, Sadiyat Island and Yas Island to name a few. It continues to help build institutions like construction of academic schools in Dubai and international schools in Ajman. Various hotels and Housing projects are built using Gulf.O.Flex in the rest of the UAE and MENA region.
